## Objective

---

Dedicated Software Engineering undergraduate with experience in developing and maintaining web applications. Skilled in writing clean, scalable, and efficient code, collaborating with senior engineers, and debugging software issues. Eager to contribute to a dynamic team through code reviews and continuous improvement in software development.

## Education

---

### BSc (Hons) in Information Technology

Sri Lanka Institute of Information Technology (SLIIT)

*Oct 2022 – Present*

St. Aloysius' College, Galle

*May 2017 – Aug 2019*

## Projects

---

### Hotel Reservation & Event Planning Web Application

*Mar 2023 – Jun 2023*

- Developed a dynamic hotel and event booking system using **HTML**, **CSS**, **JavaScript**, and **PHP**.
- Integrated real-time availability checks, reducing manual errors in booking.
- Designed a responsive interface to improve user experience across devices.

### Smart Tech Hub Management System

*Feb 2024 – Jun 2024*

- Built a management system using the **MERN stack** to automate workflows.
- Created interactive dashboards for better tracking and data analysis.
- Reduced manual processing time by automating routine operations.

### Jeesara Catering Service Web Application

*May 2024 – Present*

- Engineered a food delivery website with **React.js**, **MongoDB**, and **Node.js**.
- Integrated **Stripe** for secure and seamless payment processing.
- Built a scalable system to handle growing user demands.

### Jetline Bus Booking Android Application

*Feb 2024 – Jun 2024*

- Developed an Android bus booking app using **Kotlin** in **Android Studio**.
- Integrated real-time seat selection and booking features.
- Focused on improving app performance for a seamless user experience.

### Age Calculator Web Application

*Aug 2024*

- Created a web application to calculate age accurately using **HTML**, **CSS**, and **JavaScript**.
- Implemented logic for leap years and varying month lengths.
- Designed a user-friendly interface for fast and precise age calculation.

## Technical Skills

---

- **Programming Languages:** Java, C, C++, JavaScript
- **Web Development:** MERN Stack, HTML, CSS, Tailwind CSS, PHP
- **Mobile Development:** Kotlin

- **Database:** SQL, MySQL, SQLite, MongoDB
- **Tools:** Git, Android Studio, Visual Studio Code, Eclipse, R
- **Frameworks:** Express.js
- **Others:** Agile Methodology, OOP, Data Structures and Algorithms

## Soft Skills

---

- Teamwork
- Problem Solving
- Creativity
- Communication
- Adaptability

## Languages

---

- Sinhala: Native
- English: Fluent
